All-America Beauties

★ EASY TO GROW ★ HEALTHY ★ TESTED

These are the selections of the All-America Gladiolus Trial Gardens, and are the cream of the crop. They are sure to grow and bloom for YOU! In the picture above, they are, from left to right, EMPEROR, APPLEBLOSSOM, ROYAL STEWART, MAYTIME AND CARIBBEAN.

Uniform low bulb prices and cultural directions on other side. Every genuine bulb is packaged with the registered AAGS trademark.

A few select florists have been licensed to offer cut flowers of the All Americas for sale. Each dozen bears the variety name with the AAGS trademark on the tag. Ask for them!!!

Printed in USA

The thirty-five All-America Trial Garden locations (see map) are in every type of soil and climate. Recommendation by this non-profit, industry-wide organization is recognized as the most coveted award for any gladiolus. Every variety tested is rated on thirteen specific traits: Color Value, Freedom from Short Heads, Floret Form, Substance, Facing & Placement, Attachment, Freedom from Weathering, Opening & Keeping Qualities, Individuality, Freedom from Crooking, Foliage Health, Husk & Bulb Health, Propagation. **EMPEROR** is the 1958 winner, and is now available with **ROYAL STEWART**, **APPLEBLOSSOM**, **MAYTIME** and **CARIBBEAN**.

All-America varieties are all protected by U.S. plant patents and sold at uniform low prices—the lowest ever for new, quality introductions. Even if you have not been successful with glads before, try the All-Americans. They are *different*.

CULTURE: AAGS recommends these steps for growing glads: (1) Open package at once and store bulb in cool dry place. (2) Plant at intervals of 10 days from last killing frost. Early plantings can stand moderate frost. (3) Plant in open sunny place, in bed or row, and in any well-drained soil. (4) Plant bulbs 5 inches deep, at least 4 inches apart. Use any good commercial fertilizer, but do not put it in

contact with the bulb. (5) Glads like plenty of water, especially when bud is forming. (6) When cutting, leave 4 leaves to mature the bulb. (7) Thrips are insect pests of glads. For complete control, use DDT dust or spray every 10 days. (8) Some growers soak bulbs in Lysol solution for 2 hours before planting and plant wet. Use $1\frac{1}{4}$ teaspoons Lysol to 1 gallon water.

PRICE: \$.50 each, \$5.00 per dozen (any combination) or one of each variety for \$2.25.

EMPEROR (Pl. Pat. Pending) is a robust grower, royal purple with light throat. A rich, distinctive color. Makes majestic spikes that grow very tall.

ROYAL STEWART (Pl. Pat. 1339) is a he-man red, straight and with 8-10 open at once. An outstanding winner of top Awards.

MAYTIME (Pl. Pat. 1591) is a real stunning pink with white throat. Delightful for arrangements. Ruffled and healthy. Remarkably easy to grow.

CARIBBEAN (Pl. Pat. Pending) is a light blue with throat of cream and white. Sparkling color, ruffled. A top performer in every way.

APPLEBLOSSOM (Pl. Pat. 1517) is white with rose-pink edges—a real beauty. An easy grower that performs excellently with only average culture.
